BLUEFIELDS LETTER.

State of Affairs Existing in Nicaragua.

A MOST OUTRAGEOUS MOVE.

A Number of Persons Arrested and Imprisoned, the Charge Against Them Being That They Were Suspicion of Effing Upon the Nicaraguan Flag—Foreigners Had to Interfere.

NEW ORLEANS, Aug. 24.—A Bluefields (Nicaragua) letter to the Associated Press, which arrived last night, says:

Shortly before noon on the 16th a most outrageous move on the part of the Nicaraguans was made. The greater part of the troops were to sail at 7 o'clock in the evening on the Yulu, the coasting steamer, and Minister Madriz decided to send with them those persons who he thought were guilty of firing on the Nicaraguan flag.

Early in the morning Consul Hatch, the British representative, was sent for and when he responded to the call he was placed in a room as a prisoner. The move was kept very quiet, and he was not allowed to communicate with the outside. No one knew of the arrest for hours.

About 11 o'clock, when a Mr. Lampton called at the building to secure permission to have certain freight released from the customhouse, he also was placed under arrest. Then Mr. Henry Brown, an Englishman, called to assist Mr. Lampton, who is a resident of New Orleans, in getting the freight, when he, too, was arrested.

Their next move was against Captain G. B. Wiltbanks, the American who accepted the position as judge under the Mosquito. H. C. Ingram, J. O. Thomas, H. A. Hodgson, Wash Glover, John Kyler and George Hodgson, all Mosquito creoles, were arrested.

After these men were detained for an hour or more, the Americans in the neighborhood were attracted by the signs they made from the windows. The English officers stationed on shore as usual went to the building to learn the cause of Hatch's absence, and were told they were under arrest.

Mr. Hatch dropped a paper from the side window telling of his arrest and the desire of the Spaniards to take him and his companions to Nicaragua. A boat was immediately sent to the English cruiser and the news distributed along the foreign quarter. Consul Zet of the United States was notified and called on Madriz. The latter said these persons were to go to the interior to stand trial. He could not get enough evidence to convict them now, but he was sure they were implicated. Consul Zet then sent dispatches to the Columbia, and by 2:30 o'clock the tug was steaming toward the bluff. What the charges are Madriz does not say. He has not even informed the Americans nor the English consul.

The English consul is charged with having incited the Jamaicans to riot and bloodshed. The owners of the Yulu, when told of the arrest, positively stated that their boat should not leave, and thus the only transport which can stand the sea is taken away from them. It is, of course, useless for the Nicaraguans to cause the arrest, for even should Captain Sumner submit to the actions of Madriz, the American population would demand and release the innocent men by force of arms, if necessary. However, the commander of the Columbia is expected before nightfall and the English commander also.

While speaking to General Lacayo just after the news was made public, it was learned that Madriz had taken these steps upon his own advice. It was not legal to take these men to Managua, said Lacayo, and he could show it in the laws of Nicaragua. Such a move on the part of the Nicaraguans, coming as it does after three insults to the American flag, deserves the most severe action, and if ever naval officers were called upon to exert their authority, their time has arrived to do so. The American population is greatly excited and were it not that they have confidence in their country's agents, the bullet-riddled buildings would suffer another attack, but this time someone would be severely hurt. The situation is serious, for no one feels safe, but it is hoped that Nicaragua will be taught a lesson that will not be forgotten by the men on the Mohawk and Columbia.

NEW LIBERTY BELL'S JOURNEY.

Terre Haute Workmen Contribute a Huge Truck.

TERRE HAUTE, Ind., Aug. 24.—The Standard Wheel company of this city has begun work on a truck on which the Columbian liberty bell, the duplicate of Independence bell, made of metal composed of moneys and art treasures contributed by the educational institutions of the country, will make a tour of this country and nearly all foreign lands. The workmen at the Wyle works will donate their labor. The truck is a big affair, as the bell weighs seven tons. The flanges of the hubs have been made of the overflow metal at the time the bell was cast.

The truck is to be constructed so that it can be used in the streets or rest upon a special railroad car now being made for it in St. Louis. The bell will go from Chicago next month to the G. A. R. encampment at Pittsburg, and from there to Mexico, where President Diaz is arranging for a grand reception. Afterward it will be exhibited in the principal cities of this country, whence it will go to England, France, Germany, Russia, and wherever civilization puts forward its foot and does not recede.

THE SONS OF VETERANS.

The Officers Elected—Past Commander-in-Chief Payne Restored.

DAVENPORT, Ia., Aug. 24.—National officers were elected at the Sons of Veterans encampment yesterday as follows:

Commander-in-chief—William E. Bundy, Cincinnati.
Senior vice commander—T. A. Barton, Providence, R. I.
Junior vice commander—Louis Lilley, Davenport.

Colonel Edward Milham of Minneapolis and Colonel George H. Harbut of Belvidere, Ill., were the other candidates for the office of commander-in-chief.

Knoxville was selected as the next place of meeting, although Omaha and Erie, Pa., were warm competitors. The past rank of Commander-in-chief Payne, courtmartialled, was restored.

By hard work the delegates to the Sons of Veterans' national encampment managed to make the afternoon's session their last, shortening the proposed meeting a day. The committee on resolutions presented a long report endorsing the pending bill before congress prohibiting the placing of advertising matter on United States flags, providing for issuance of a special badge to members in good standing over 10 consecutive years and expressing fealty to the Grand Army.

The following officers were appointed: Adjutant general, H. V. Speelman, Ohio; inspector general, A. C. Baisdel, Lowell, Mass.; judge advocate general, George W. Harrington, Hiawatha, Kan.; surgeon general, E. Welden Young, Seattle, Wash.; chaplain general, Rev. J. W. Patten, Milwaukee.

The proposed insurance branch and funeral and sick benefits were voted down.

The Ladies' Aid society voted down a proposition to change the name to Sons of Veterans Aid, U. S. A.

Census Bulletin.

WASHINGTON, Aug. 24.—A census bulletin issued yesterday shows that almost 69 per cent of farming families in Missouri own the farms cultivated by them, and the remainder hire them. Over 36 per cent of the farm-owning families own subject to incumbrance, on owned farms in the state liens amounting to \$53,753,011 exist. The average value of each farm is \$2,643 and of each home \$2,615. Almost 66 per cent of the home families hire their homes, and the remainder own them. The debt on owned homes in Missouri aggregates \$29,232,658.

Thrown From the Track.

FORT ATKINSON, Wis., Aug. 24.—Several freightcars were thrown from the tracks two miles north of here on the Chicago and Northwestern railway yesterday. A broken axle was the cause. One of the cars was loaded with lumber and seven men had entered it, riding between the lumber and the end of the car. When the cars were thrown from the track the lumber shifted so as to crush three of the men to death. The killed are: Thomas Ingalls, Charles Klein and Stephen Ontka. The others were seriously hurt.

Pension Attorney Disbarred.

WASHINGTON, Aug. 24.—Acting Secretary of the Interior Reynolds yesterday ordered the disbarment of Vincent Anderson, a pension attorney of Quincy, Ind., from practicing in the interior department for unprofessional conduct. Anderson is charged with sending letters to the department couched in insulting and scurrilous language, directed against the administration of the department in pension matters. Anderson has prosecuted claims before the department for over 10 years.

Mirror Manufacturers.

CHICAGO, Aug. 24.—A meeting of the National Mirror Manufacturers' association was held yesterday. Members were present from Chicago, New York, Milwaukee, Cincinnati, St. Louis, Louisville, Detroit, Rockford and Grand Haven, Mich. The session was occupied with a discussion of the rates for the trade next season, and a committee was appointed to confer with furniture houses of the country to come to an agreement and report at the next meeting in New York.

Pension Resolution.

WASHINGTON, Aug. 24.—Representative Hudson (Pop., Kan.) has introduced a resolution for the appointment of three pension commissioners instead of one. One would represent each political party, including the Populists, they would hold office for six years and in disputed cases a majority of the board would decide. Mr. Hudson also introduced a bill for the coinage of all silver from American mines into standard silver dollars.

Philadelphia at Frisco.

WASHINGTON, Aug. 24.—A telegram received at the navy department yesterday announced the arrival of the United States steamship Philadelphia at San Francisco from Hawaii. She has been at Honolulu since Sept. 13—nearly a year—and will go into dock at once, as she is supposed to be very foul. It is nearly four years since the ship went into commission so that considerable repairs may be necessary.

Failure Due to Ill Health.

NEW YORK, Aug. 24.—Henry Henrici, jobber in woollens, assigned yesterday, with preferences amounting to \$30,000. Mr. Henrici's liabilities will be about \$75,000, and the assets between \$30,000 and \$40,000. The failure is due to the ill health of Mr. Henrici, and the general depression of business.

EAU CLAIRE, Wis., Aug. 24.—Congressman Shaw will probably die within a few hours. The physicians have given up all hope.

SUBMARINE TERROR.

One Will Probably Be Constructed in the Near Future.

IT IS OF THE HOLLAND TYPE.

It Is a Submarine Boat Wanting in Nothing That Can Be Useful in Such a Vessel. It Can Run For Over Six Hours Completely Submerged at Eight Knots Per Hour.

WASHINGTON, Aug. 24.—The secretary of the navy has referred to the construction board of bureau chiefs the submarine boat project for their opinion as to whether it would be advisable to build a vessel of that type when the necessity for economy is so urgent, and also whether it is their opinion the design approved last September should be accepted, in case they agree to recommend the construction of a submarine boat. A majority of the board have practically decided to favorably recommend the building of such a boat of the Holland type.

The design which the board is considering and which, with minor modifications, will probably be commenced this autumn, represents three distinct types of vessels. It is first a submarine boat wanting in nothing that can be useful in such a vessel. It can run for over six hours completely submerged at eight knots per hour. Its speed and endurance while on the surface of the water is 16 knots and 18 hours full power run. It can steer on a straight course while submerged and for the full length of its six hours' submerged run.

While the vessel is in the avash condition it represents a distinctly new type of vessel. It is then a protected submersible torpedo boat, because its hull is then covered by a depth of three feet of water, which is ample protection against projectiles. The top of the pilot's sighting turret, the only visible feature, is of Harveyized nickel steel eight inches thick, and therefore strong enough to withstand the attack of rapid-fire guns without serious injury.

As a surface torpedo boat, it has the great advantage of exposing practically no visible bulk out of water and of having what is visible fully protected. It also has a heavier torpedo armament than any vessel of its size. Its usefulness in either one of these capacities is in no way affected or interfered with by its effectiveness in the others.

The objection to submerged boats, which has heretofore been urged as insuperable, is the difficulty of steering, as it is impossible to see for any considerable distance under water. The new boat has provisions for surmounting this obstacle, being fitted with two independent sets of apparatus for securing exact steering while beneath the surface.

DEATH THEIR PORTION.

Three Deserters From the Chinese Army Will Be Sent Back.

CHICAGO, Aug. 24.—Three Chinese sat in a cell of the Harrison Street police station meditating on death. They were Mock Coon, Mock Shon and Lum Bick Hop. Only a few weeks ago these three men were in China, soldiers in a militia branch of the military service.

Then mutterings of war with Japan were heard. Mock Coon, Mock Shon and Lum Bick Hop had no liking for war, so they left China and landed at Vancouver, B. C. The United States was their mecca, but federal officers caught them when they crossed the line at Plattsburg, N. Y., in defiance of the Chinese exclusion act.

These three deserters from the Chinese army came to Chicago yesterday morning in charge of a deputy United States marshal. He is taking them to Port Townsend, Wash., whence they will be shipped back to China. As deserters death will be their portion when they arrive in China.

MONEY LEAKED OUT.

An Investigation Progressing at the Akron Postoffice.

AKRON, O., Aug. 24.—The discovery yesterday that a systematic plan of robbery had been carried on at the post-office for some time has led to a more extended investigation. Thus far there have been 35 letters containing money which have been reported lost at the office. Two letters that had been opened and money taken from them were also found in a sleeping room of the postoffice.

The amount was not large, however. The robbery seems to have been going on more particularly since the 1st of July, when postal notes were discontinued, and people took to sending money in envelopes. The matter has been reported to the department. While there are suspicions, there have been no arrests made.

MINE ACCIDENT.

One Man Instantly Killed and Three Others Badly Injured.

MACON, Mo., Aug. 24.—A disastrous accident occurred at the Kansas and Texas mine, southwest of here, yesterday. Hall McCarthy, a miner, was instantly killed, and three others so badly injured that their recovery is very doubtful.

The accident was caused by the fall of a tremendous big rock, which extended clear across the two rooms in which the four men were working. It is alleged that the insecure condition of the rock had been noticed several days ago and the men were directed to place supports under it. It seems they neglected to do this, intending to do it yesterday, but they were just a little too late.

PRUNE JUICE WHISKY.

A New and Cheap Way Just Discovered to Make Firewater.

COLUMBUS, O., Aug. 24.—Food Commissioner McNeal has discovered in the local markets an article intended for use in making fraudulent whisky. The particular sample he has secured is put up by a New York firm, and is labeled "prune juice." Upon the wrapper is also a statement that the contents (about two pints) is sufficient to make five gallons of whisky.

Further directions state that this "prune juice," with about 50 cents worth of alcohol (it need not be the best by any means), should be added to about five gallons of water. The resultant mixture is ready to be sold for whisky.

Dr. J. A. Sterritt, who is in charge of this branch of the work, followed directions with the sample and succeeded in making a bottleful of what would readily pass for whisky of fair quality anywhere. Several persons who were asked to taste it pronounced it whisky, but two of them said, after being informed of its real character, that they could detect a slight taste of varnish in it.

It is not known what the mixture really is, but it is certainly not prune juice, as it purports to be. The department will know what it is, as soon as the chemist can make an analysis of it. It is an adulteration, no doubt, and as such illegal under the Ohio laws. There is a question, too, whether it is not a violation of the federal revenue laws to make such whisky and sell it without paying the government tax upon it. The alcohol put in it insures that the bogus whisky will make one drunk just the same as the regular stuff.

Dr. Sterritt gives it as his opinion that this kind of whisky can be made for about 10 cents a gallon, so that being allowed to put it on the market without paying the government license is about as good a thing as being allowed to run a moonshine distillery without disturbance. As soon as it becomes generally known that such an article is on the market, the proprietor will be apt to find the state and national governments after him.

TROUBLE IN THE CHOCTAW NATION.

That Country Is Now Threatened With a Civil War.

DALLAS, Aug. 24.—A special to The News from Paris, Tex., says trouble has again broken out in the Choctaw nation and that country is threatened with a civil war. This time the trouble is between the adherents of Dick Lock in the unpleasantness of last year, who have divided into factions.

Recently a number of outrages have been committed in Cedar county. Jackson Lilly, deputy sheriff of Cedar county, organized a posse to arrest "he offenders. They went to George Baldwin's, where they found Baldwin asleep. He was taken into the yard, where each of the men in the posse fired his Winchester into the prisoner repeatedly, mutilating him beyond recognition.

This deed was committed in the presence of Baldwin's father, mother and sister. George Davenport and two others were arrested and put in chains and taken to Sulphur Springs, where they are to be held for trial.

The friends of Baldwin and the prisoners are organizing to go to their rescue and a bloody battle is anticipated. Others who are wanted by the Cedar county authorities are at Antlers with a number of friends. They are well armed and declare they will not surrender.

PREPARING FOR THE KNIGHTS.

Washington Will Royally Welcome the Knights of Pythias.

WASHINGTON, Aug. 24.—Not since the Grand Army encampment of 1893 has Washington made such preparations for honoring visiting organizations as are now being made for the reception of the Knights of Pythias, whose encampment will begin here next Monday.

Over on the Washington monument grounds, south of the White House, 1,700 tents for the visitors are in course of erection. The camp will be named in honor of George Washington. Decoration of buildings along the route of the great parade has already begun, and visitors are arriving in large numbers.

General Carnahan, the commander of the uniform rank, estimates that 10,000 Pythians will participate in the celebration, and accommodations have been made for that number. One feature of the encampment will be the marching and counter-marching of the Pythian companies on Pennsylvania avenue during the parade.

This is made possible by the ample width of the avenue. Everything points to this as the greatest encampment in the history of the Pythian order, and both the federal and local authorities have co-operated with the committees on arrangements, to attain that end.

Women Have Their Own Way.

GRAND FORKS, N. D., Aug. 24.—Attorney General Standish states that "Any woman having the qualification that would entitle her to vote if she were a man, will be entitled to vote for superintendent of public instruction in this state at the forthcoming state election," and advised county auditors and sheriffs to provide in each precinct cheaply constructed separate boxes to receive their votes. Where these boxes are not provided the judges of elections have authority to provide such boxes. They have no right to debar the women from voting, nor to refuse their ballots where the women are eligible.

WASHINGTON, Aug. 24.—The cash balance in the treasury yesterday was \$122,710,618, of which \$54,882,050 was gold reserve.

RAILWAY SIDE OF IT.

Manager St. John Testifies Before the Labor Commission.

A HISTORY OF THE STRIKE.

How It Affected the Rock Island Road—A Loss to the Company of Nearly a Million Dollars—Something About the Managers' Association—Only One Witness Examined.

CHICAGO, Aug. 24.—General Manager E. St. John of the Rock Island railroad was called before the strike commission yesterday. Mr. St. John had prepared a history of the strike as it affected his road and read to the commissioners a detailed account of the troubles. When he had finished he was asked if his company blacklisted men.

"Not in the sense that the word is generally understood," said the witness. "When a man is discharged from our divisions we send a statement to our other divisions, that he may not be re-employed, but no such statement is sent to other roads unless it is requested."

"Can you show us a copy of your contract with the Pullman company?" asked Commissioner Kernan.

"I can show you the contract," he said, "but I will regard it as a private matter. I do not wish to have it published in the newspapers."

This proposition was refused and Mr. St. John was asked if the contract compelled his company to haul Pullman cars on all passenger trains.

"No," was the answer. "We can haul Pullmans on any trains we choose and need not haul them unless we wish."

"Then you were not compelled to haul Pullmans during the strike?"

"No, we were not."

Mr. St. John was asked as to the number of strikers that had been taken back by his company.

"Most of our men," he said, "quit work through fear, but of the 522 actual strikers only 74 have been taken back."

The witness said that their relations to labor unions were regulated by the number of men on their lines belonging to the unions.

"When a union has 50 per cent or more of our men," he said, "we as a general thing treat with its representatives. We had no dealings with the American Railway union, as it had less than 500 of our employees."

"Did your road cut wages last spring or this summer?" asked Commissioner Wright.

"No, sir. We cut our force, but not wages."

"Has your road advanced wages within the last 10 years?"

"Yes, we have frequently made individual advances, but no general increase that I remember of."

"How much did the strike cost the Rock Island road?"

"I can not give exact figures without reference to data, but I should say that the strike cost our road between \$800,000 and \$1,000,000."

Mr. St. John emphatically denied the statement that United States marshals used during the riots were controlled by the railroads.

In the afternoon Mr. St. John gave a history of the formation of the General Managers' association which he denied had its inception from any desire to reduce the wages of the men. He said further: "The schedule of wages we have compiled seems to have been misunderstood. It is a tabulation of railroad wages all over the country. It was impossible to have anything like equality of wages for the same class of service without some such tabulation. It had nothing to do with an intended reduction of wages and was not followed by reductions. Two or three of the southern lines found they were paying wages considerably in excess of wages paid by their competitors and naturally reduced them to an equality."

"I do not say that there will not be a reduction of wages and a revision of the schedule tax. The Rock Island so far has made its economies in the reduction of force and the shortening of working hours. I fear very much, however, that unless a change come in the situation something will have to be done. I speak of the company's financial affairs with the greatest reluctance in public, but its earnings have suffered a decrease of \$800,000 in three months, and some method will have to be devised of changing that result. Some of the companies have had their earnings decrease at the rate of \$500,000 a month."

Mr. St. John, in answer to a question, said the story that General Miles had called at association headquarters was positively absurd.

Questioned as to the best remedy for strikes, he said he had no suggestions to make, although he had given the matter much thought. That a way would eventually be found, he firmly believed, but he could not form an idea now as to what that way will be.

Mr. Kernan asked the witness if he did not believe a system of government license applied to railroad employees would be a good thing.

Mr. St. John said he thought the plan had merit if it could be kept out of politics. The government might establish the system on some of its subsidized roads and try it.

The commission then adjourned.

Reunion of Veterans.

COLUMBUS, Ind., Aug. 24.—Arrangements were perfected yesterday afternoon by which the Twenty-second and Sixty-seventh Indiana regiments are to hold a joint reunion in this city on Sept. 19 and 20. Members of the last regiment now living are scattered from Vermont to Texas.

The Cincinnati Tribune has been discoursing on "the power of the sugar trust." Republican papers ought to be well posted on this particular subject.

According to the New York World, Senator Gorman not only proved traitor to his party in the late tariff fight, but was guilty of practicing some despicable tricks on the House Democrats. The Democrats of Maryland will attend to Mr. Gorman.

REPUBLICANS have been howling about "the many mistakes in the tariff bill," but the Engrossing Clerks of the Senate have been comparing the statement of errors in the various papers and say that there are only two or three mistakes that need to give importers or officers of the Treasury any concern.

The Boston Herald makes note of the fact that good fortune smiles on the South. "It has suffered little from strikes or other labor troubles," says the Herald, "and now the Government crop report shows that the drouth and the hot winds that have blighted the fields of the West have not been experienced in the South, and the crops in that section of the country are exceptionally bountiful. There is no reason why the Southerners should not be happy and prosperous under present conditions."

The Courier-Journal very pertinently remarks that "there is not a charge of any weight that the Republicans bring against the new tariff bill which does not recoil with double force against themselves. In their eagerness to make capital for their party, they throw to the winds all the sophistical subterfuges, all the sly dodges, all the false pretenses with which they used to defend the protective system. Their one unanswerable charge is that the new tariff is protective and in attacking it on that ground they condemn themselves, and give up their whole case."

MR. J. HAMPTON HOGE, of Virginia, was appointed Consul to Amoy by President Cleveland a year or so ago, and went off and got on a big spree over his good luck. The President promptly revoked the appointment and Hoge was recalled, in disgrace, before he could embark for China. He got "huffy" over the treatment and left the party, and now the Republicans of his district have nominated him for Congress. They must be hard up for material. The Philadelphia Telegraph (Rep.) says:

Everything goes in Virginia politics at this time, and Hoge is thought "good enough to be the candidate of the "poor niggers" and Republican white trash in the Lynchburg district. It does really seem that the time has come when the Republican National convention should put up the bars and not permit delegates to come in from such low-down organizations as pass for the Republican party in some sections of the South to-day.

Keep Posted, You Farmers.

The Courier-Journal says: "The farmer who has wheat or corn to sell this year will put money in his purse by informing himself thoroughly of the existing crop conditions before he parts with it. For the farmer who has raised a surplus of these grains, the present year brings a combination of circumstances unusual in character and decidedly in his favor. Predictions as to the course of the grain markets are too hazardous to be ventured by any prophet with a fair regard for his reputation. In a field where speculation plays so prominent a part, it is hard to tell what a few days or a few weeks may bring forth, but speculation after all, however erratic and confusing it may be for brief periods, is guided in the long run by the natural conditions of supply and demand, and these conditions in respect to grain are for the current crop season decidedly out of the ordinary. It would be too much to say that wheat is sure to recover much of the decline in price that it has suffered within the past two years, but it is not too much to say that the chances are at present in favor of such a recovery."

KENTUCKY VERSUS OHIO.

The Colored Grand Commandery, K. T. of This State, Declares For Non-Intercourse With the Buckeye Brethren.

The colored Grand Commandery of Kentucky, K. T., at its session in Maysville this week declared for non-intercourse with the Grand Commandery of Ohio. The following account of the causes of the trouble and the action of the Kentucky Commandery is furnished the BULLETIN from the official proceedings: The Grand Commandery of Ohio having "revoked the warrants of Palestine and Mt. Calvary Commanderies of Louisville, hoping thereby to prevent them from leaving it and affiliating with Kentucky," was severely handled.

It was clearly shown that the action of the Ohio Commandery was arbitrary, illegal and void; that it was in violation of her own statutes and regulations to revoke the warrant of a Commandery without notification, summons or trial, and by a mere resolution.

The concluding portion of the report on the subject is as follows:

"This fight is not of our seeking, but is forced on us by Ohio, which has acted like a bully and bragart, and has tried to brow-beat and intimidate us, and by unfair and disreputable means prevent these Commanderies from uniting with us. Much as we deplore the necessity—on account of the sublime principles of this Noble Order—if non-intercourse is her desire, non-intercourse let it be. If Ohio will act honorably we will treat with her, but if she runs up the black flag and becomes the buccaneer of Grand Commanderies, we will spit upon and spurn her and fight her as long as a single Sir Knight is able to wield a sword.

"We declare non-intercourse with the Grand Commandery of Ohio, and may God defend the right."

The newly-elected Commander has appointed the following:

Grand Standard Bearer—Henry C. Smith, Paris.
 Grand Sword Bearer—Richard Burns, Maysville.
 Grand Warder—Napoleon Bonaparte, Louisville.
 Captain of Guards—James Evans, Lexington.
 Grand Lecturer—Win. H. Perry, Louisville.
 Committee on Jurisprudence—George Sutton, W. A. Kenyer, J. W. Ware.

MAYSICK.

We are needing more rain for the fall grass and turnips.

Dr. Wells, of Mt. Olivet, dined at the Stonewall House Wednesday.

J. D. Burnaw, wife and children, of Carlisle, are visiting Mrs. Rebecca Clary.

Mrs. Susan Bedford went to Georgetown Monday to hear Colonel Breckinridge and visit her sister, Mrs. Penn.

Morris Hutchins, candidate for County Judge, was here Wednesday among his friends. He says he wants to be elected.

Mrs. Thomas P. Hopper, of Maysville, was here this week, a welcome guest. She is a great favorite here among her friends.

Don't forget the meeting at the Oddfellows Hall next Saturday at 3 p. m. to organize a cemetery company. Let everybody attend.

There was a goodly number went to Georgetown Monday to hear Breckinridge. Among them W. J. Jackson, S. H. Mitchell, John S. Mitchell, Dr. E. M. Groves and E. P. Fogue.

Best in Its History.

At the State meeting of the Christian Church in Lexington this week the Leader says: "The report of H. W. Elliot, the financial agent, was the best ever read by the convention during the fifty-four years of its existence. Notwithstanding the depression in business circles, the cheapness of agricultural products, the uncertainty of pending legislation, more than \$50,000 have been raised and expended by the church in the State during the year."

The report shows decidedly an onward movement. During the year there have been between two and three thousand additions to the church. Rev. E. B. Cake was appointed a member of the Committee on Nominations.

TO GET RID OF THE A. P. A.

The Republicans Trying to Cut Loose From the New Association. Strong Talk.

ST. LOUIS, Mo., August 17.—The Hon. Richard C. Kerens, the Missouri member of the National Republican Committee, will leave for New York to-morrow for the purpose, it is said, of consulting with the members of the National committee as to the best mode of casting the American Protective Association adrift. It will be remembered that a resolution presented by Mr. Kerens at the Missouri Republican convention this week was turned down. Mr. Kerens, in an interview this evening, said of the prospects of Republican success in Missouri this fall:

"The menace to success is in the attempt of the A. P. A. to attach itself to the Republican party. We don't want them. Nobody knows who they are or how many there are of them. They are a band of fanatics who deny their own identity. They are a lot of sand-baggers in politics, and my friends and I know why they are. They belong to no political party. Their doctrine is almost the same as that of the Orangemen of the Dominion of Canada. Emphatically the Republican party must divorce itself from the A. P. A. and any other secret political organization."

ENCOURAGED

By my unprecedented sales during the last season, and being determined to still further increase them, I have closed contracts for an immense stock of

Canned Goods and Fancy Groceries,

of all kinds, bought from first hands when the "scare was on," at extremely low figures for CASH. Having closed out all old goods, my stock will be new and clean and of the very best quality. I will continue my popular system of

Special Cut Prices to Cash Buyers,

so watch this space, as it will from time to time, during the season, contain some startling announcements. In the meantime, come right along with your cash and get more goods and better goods than you can at any other place. Remember "Perfection" Flour is the best. Our blended Coffee has no equal. Try them.

R. B. LOVELL,

The Leading Grocer.

ATTENTION, LADIES.

My stock of goods is complete, and persons needing MILLINERY GOODS, RIBBONS, &c., will do well to call and inspect my line before purchasing elsewhere. MISS LOU POWLING, a304im West Second street, Maysville, Ky.

BASE BALL GOSSIP.

The Games This Afternoon and Tomorrow—Contests at Other Points.

A big crowd will, no doubt, go out to the fair grounds this afternoon to see the opening game between the locals and the "All-Professionals" of Cincinnati. The concert by the Emma Warren Theatre Company's fine band, from 1 to 3 o'clock, will be an additional attraction.

The game Saturday afternoon will give lovers of the sport in all the surrounding country an opportunity to see some good ball playing. They should turn out. If the attendance comes up to expectations Manager Watson will arrange for other games hereafter on Saturday afternoon.

The locals must put forward their strongest team to-day, if they expect to win. The boys can put up good ball when they try.

The Georgetown team has developed into one of the best in Central Kentucky. They gave the Lexingtons a severe drubbing twice this week. The score of the second game was 13 to 7.

Mt. Sterling defeated Paris Wednesday by a score of 23 to 3.

The Ashland blow-hards play Mt. Sterling to-day and to-morrow.

The Louisville Legions have lost every game they have played on their present trip. Ashland defeated them Wednesday by a score of 17 to 7.

Want Women to Keep Silent.

Courier-Journal: "There is a small sensation in Sunday school circles caused by the withdrawal of Dr. T. T. Eaton and the Rev. Carter Helm Jones from the programme as speakers. On Monday these gentlemen saw for the first time a copy of the printed programme which had on it the names of two ladies, who were to make addresses at the State Sunday school convention in Russellville. The two reverend gentlemen wrote at once to the President of the convention withdrawing from the programme and asking him to explain the reason to the convention. The reason is as subjoined: 'As we read the New Testament, and as well nigh all the scholarly commentators expound it, the Holy Spirit distinctly and unconditionally forbids women addressing public assemblies of men and women.'"

Grand Excursion to Washington City.

Those who visit Washington City during the K. of P. encampment, August 22 to 26 inclusive, should by all means travel over the C. and O. Its train service is superior to that of any other line, while there is no one to dispute the fact that the trip through the Virginias, both for scenic beauty and historic interest, is unequalled in the world. It costs no more for superior train service, and every one should see that their tickets read over the picturesque C. and O. See your nearest ticket agent or address C. B. Ryan, A. G. P. A., Cincinnati.

Big Fish.

Dover News: "The other morning, at Levanna, Charles Dunham caught a cat-fish weighing seventy pounds, on a trot line. He brought the fish over to Dover the same day and sold it for over \$5. The same day Will Linsse caught one weighing 102 pounds in a net at the fishing shore, and two others weighing fifty pounds each. Last week two cat-fish were hooked at Logan's Gap that weighed forty-eight pounds each. More large fish have been caught in the Ohio river this year than ever known before."

Delightful Outing.

THE Jackson Hustler says that J. K. Sroufe, Engineer Maintenance of Way of the K. U., has gone to the Breaks of Sandy and Virginia, under orders from New York to look out the most practical route for the extension of that railroad.

J. F. RIGSBY, formerly a messenger for the Adams Express Company, on the Louisville Southern, was convicted Thursday at Lawrenceburg of embezzlement and given three years. This is the case which Mr. W. C. Payne, formerly of this city, worked up. He succeeded in capturing Rigbsby at Lexington.

AT Peebles, O., Mrs. Phineas Wright ordered Wm. Sullivan, a saloon-keeper, not to sell her husband any more liquor. Sullivan insolently told her that as long as the husband had any money he could get what he wanted. The woman became enraged and struck Sullivan a blow in the mouth, knocking out several teeth. Served him right.

CHARLES B. MCCORD, a well-to-do Boyle County man, disappeared mysteriously while at Winchester a few days ago and is still missing. His finances are in good condition, his domestic relations have been undisturbed, and the supposition is that the treatment he took to cure him of the tobacco habit to which he was addicted, has so impaired his mind that he has wandered aimlessly away.

SINCE the base ball craze took possession of the country there have been several accidents similar to this, told in the Hopkinsville Kentuckian: "Will Oldham, the young man who so unfortunately broke his arm while trying to throw a ball from deep right field to home base one day week before last, is at last able to be out upon the street. It has been said that he would never be able to play any more, but his physician says that when his arm gets well it will be stronger than it was before."

HOUSE AND SENATE.

Neither Branch of Congress Transacts Any Important Business.

WASHINGTON, Aug. 24.—About 50 members were on the floor when the house met yesterday. There was, as usual, a great rush on the part of members for recognition to pass bills of local importance. A bill was passed to extend the time in which the Hutchison and Southern Railroad company can construct a railroad through the Indian Territory.

Mr. Bynum then made the regular order. Thereupon Mr. Cummings, chairman of the committee on naval affairs, presented the report of the committee on the armor plate frauds. With it he presented a joint resolution to authorize and direct the secretary of the navy to remove from the Monadnock the monitor Terror, the ships Oregon, Indiana and Massachusetts and the cruiser Monterey certain specified armor plates and to subject them to the ballistic test at the Indian Head proving grounds. The resolution also directed a speedy report on these tests.

In the Senate.

WASHINGTON, Aug. 24.—Even before the reading of the journal in the senate the absence of a quorum was pointed out by Mr. Manderson, and the roll being called showed the presence of 33 senators, 10 less than a quorum.

Mr. Harris moved that the sergeant-at-arms be directed to request the presence of absentees, but Mr. Pasco and Mr. Cockrell pointed out that the same order made Wednesday was still in force, and the latter asked for the report of the sergeant-at-arms. This was dated Aug. 23 and reported that of the 42 senators who failed to answer to their names Wednesday, only two were in the city, and one of these (Mr. Voorhees) was too ill to attend. The other senators were telegraphed to attend immediately.

At 1:30, finding it impossible to get a quorum, the senate, on motion of Mr. Harris, adjourned.

TRYING TO GET BACK.

Union Pacific Employees Trying to Get Their Old Situation Again.

OMAHA, Aug. 24.—General Manager Dickinson of the Union Pacific is daily receiving hundreds of petitions for the reinstatement of old employees who went out on a strike. These letters do not come from the men themselves, but from merchants, bankers, real estate agents, board of trade associations and others.

They are all of the same tenor, asking that work be resumed in the shops and that old employees be given preference over imported help. So urgent are some of the demands that Mr. Dickinson has about decided to go west and personally interview the business men of the communities clamoring for relief and asking for the reinstatement of the men. The petitions declare that many of the men's families are in absolute want.

LEFT TO THEIR FATE.

Professor Battye and Companion Put Ashore on Blank Kolquev.

ABERDEEN, Aug. 24.—The yacht Saxon has arrived at Peterhead, returning from a scientific expedition to the Arctic regions. She reports that she landed Professor Aubrey Battye, the ornithologist, and one companion on Kolquev island, a hundred miles from the Russian coast, on June 2.

The Saxon, however, was obliged to abandon Battye and his companion on account of the heavy seas and ice, which threatened the destruction of the yacht. It is hoped that the two explorers will be rescued by the next Russian gunboat which visits the island.

The Governor Advances the Money.

INDIANAPOLIS, Aug. 24.—The payment of the state militia who were on duty during the recent coal miners and railroad strikes, began here yesterday. There were no available funds with which to meet the obligation of the state, and Governor Matthews gave his personal note for the required amount, \$41,000, and the local banks advanced the money. Governor Matthews stated that he had no doubt that the legislature would make the necessary appropriation at the next session. The governor said many of the soldiers were in need of the money and should be paid at once.

Deed of an Insane Farmer.

KENTON, O., Aug. 24.—In Roundhead township, 16 miles from here, Silas Baughman, aged 27, a farmer, became suddenly insane over religion, imagining he must make some terrible sacrifice to atone for his sins. With a pen-knife he lacerated himself horribly and his recovery is hardly possible. Last Monday morning he was married in this city to Mandy Peterson, a widow, residing in the vicinity of his home. His father is a very prominent farmer.

Two Workmen Killed.

NEW YORK, Aug. 24.—James Geblin, 56 years old, and Edward Murray, 34 years old, were killed yesterday afternoon while at work in the new building of the United States board of appraisers' warehouse at Christopher and Greenwich streets. Geblin missed his footing on a ladder on the second floor. As Geblin fell Murray heard his cry and looked out from the same floor. He lost his balance and fell also.

How It Resulted.

PARSONS, Kan., Aug. 24.—At the Democratic congressional convention of the Third district held in this city yesterday W. F. Sapp of Galena was nominated for congress over Congressman Hudson, the present Populist member, by a vote of 102 to 21. It was one of the largest and hottest Democratic conventions held in this district in years.

Supposed Incendiarism.

ERIE, Pa., Aug. 24.—Fire broke out at midnight in the engine room of the Erie rail works and the entire plant was destroyed. The works have been burned three times. The loss will not be less than \$65,000, on which there is an insurance of \$30,000. The fire is one of a dozen within the last 24 hours, and incendiarism is supposed.

CLEWS ON THE OUTLOOK.

The New York Financier Says Now is the Time For Everybody to Take the Building-Up Side.

Henry Clews, the New York banker and financier, in his last weekly letter on the business outlook says: "Wall street is unquestionably the pulse of the country, and as a patient's pulse indicates his condition, so will the security market here reflect the convalescing condition in manufacturing and commercial circles which will prevail throughout the country from now on. Europe has already perceived the brightening financial skies here, and has been quick to recognize the advisability of accumulating American railroad properties while it can be done at low figures. Each day brings fresh buying orders from abroad, and foreigners are getting as anxious to hold our securities now as they were to let them go a while back. Added to this, the absorption of bonds and stocks which are now looked upon as unreasonably low continues; that is, they are being bought and taken out of the market entirely. The long-continued 'bear' markets have shaken out weak holders, and securities in general are getting into strong hands. "That the railroads of the United States are in a better position to recuperate rapidly than they were a year ago there can be no doubt. The long period of depression has necessitated the cutting down of expenses wherever and whenever it was possible. It has taught railroad managers how to economize and forced them to do business on a cheaper basis than ever before; so that increases in traffic are likely to show much larger net returns, owing to the low basis of operating expenses. For a while also there is not likely to be many new extensions to old roads projected, as at present there is little incentive for anything of the kind, and there will not be until the business of the United States gets back to its old magnitude. The corn crop has been less an element of fear in connection with the Granger roads this week. There has been considerable rain in the corn belt, and though the Government crop report issued on the 10th indicates a deterioration in condition sufficient to reduce the general yield to something under 1,500,000,000 bushels, the impression prevails that the worst of the damage is now known, and that there is no further reason for 'bearing' the stocks of the corn-carrying roads.

"The way should now be clear for a new departure based upon a rock foundation; a condition which could only have been accomplished by rigid economy and thorough liquidation. The attitude for everybody to take now is on the building up side, which carries with it cheerfulness, hopefulness and profit to all who put their shoulders to the wheel and take hold with a vim. We can not do better than point out the wisdom of our advice of ten days ago to the effect that the stock market would be governed by what is ahead, and not by what has passed; that the old condition of stagnation and depression is rapidly being lost sight of, and that every one is looking forward to what may be expected to prevail six months from now and thereafter. By that time railroad earnings will have returned to a normal condition, which means more than it did under the old situation, owing to the pruning process which the roads have all undergone. The thing to do is to discount a general improvement in the future; and we will recommend buying stocks for higher prices. The reactions which will occur occasionally will afford excellent opportunities for getting in at good figures."

When Baby was sick, we gave her Castoria. When she was a Child, she cried for Castoria. When she became Miss, she clung to Castoria. When she had Children, she gave them Castoria.

To the Point.

[Jackson Hustler.]

Make the school room comfortable. Let it have good desks, maps, charts and globes. Make the house bright outside and in. It should be the most attractive spot in the community. Put a good fence around it. Let it be a place to which your children can look back in future years and say with pride: "There is where I received my education."

Given a Warm Reception.

MOUNT PLEASANT, Pa., Aug. 24.—Slav coke strikers from here, while on their way home from the Scottsdale meeting, were given a warm reception yesterday evening while coming through West Overton. It seems one of them fired off his revolver and that started a regular pitched battle with the colored men at that plant. Several hundred shots were exchanged, but the only person hit was a Slav, who had to be hauled home, and is expected to die. It is said he was shot by one of his companions.

It Only Took Three Rounds.

MOUNT CLEMENS, Mich., Aug. 24.—Ed Austin of Detroit was knocked out by Tom Kelly of New York in a glove contest, held in the opera house here, last night. The fight was to have been 10 rounds but Kelly won the gate receipts easily when the third round was finished.

Undoubtedly Insane.

VIENNA, Aug. 24.—Baron Munday, well known as the founder of the Salvage society, has committed suicide by shooting himself with a revolver. His body was found under the Danube bridge. He was undoubtedly insane.

KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all druggists in 50c and \$1 bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.
